qleads.ai · Broker FAQ

Exclusive, voice-verified Dubai property leads for brokers · Updated November 2026

Everything a broker typically asks before registering. Still have a question? Message us on WhatsApp.

1. What is qleads.ai?

qleads.ai connects RERA-registered Dubai brokers with exclusive, pre-qualified, voice-verified property buyers. Buyers talk to AiSHA, our AI property advisor, on WhatsApp. Once a buyer is qualified and consents, we deliver them to one broker.

2. What exactly is a “Q-Lead”?

A buyer who has had a genuine WhatsApp conversation with AiSHA, had their budget, purpose, area and timeline confirmed, been voice-verified on a recorded call, and consented to speak with one specialist broker — you.

3. How are leads qualified?

AiSHA holds a real conversation, silently assessing intent, budget, purpose and locality. Only buyers who clear our qualification bar and pass voice verification are delivered to brokers.

4. Are the leads exclusive?

Yes. Every lead is delivered to one broker only and is never shared with another broker. There is no race to call first and no competing with other agents over the same buyer.

5. How long is a lead mine?

A delivered lead is yours — we never share it with another broker. In limited cases a long-dormant buyer who re-engages months later and is left unanswered may be re-offered, but only under a clear, notice-based policy explained at registration.

6. What does a lead cost?

AED 500 per qualified lead, debited from your prepaid wallet when the lead is delivered. Your first top-up of AED 500 gets you 2 leads: the first is free, the second is paid from your AED 500. Not as described? Dispute within 24 hours and it is replaced free. For more leads, top up in multiples of AED 500.

7. How does the prepaid wallet work?

Registration is free. Once your wallet holds AED 500 you are eligible for leads. You top up in steps of AED 500; there is no mandatory recharge, and credits never expire. The first AED 500 is a 2-lead starter pack. If you close your account, your balance is refunded, except the AED 500 starter pack when your free lead has been delivered and no paid lead has been delivered since.

8. When am I charged for a lead?

AED 500 is debited from your prepaid wallet when a lead is delivered to you. If the lead does not match what was promised, raise a dispute within 24 hours and we replace it.

9. How do I register?

Message us on WhatsApp with your name, RERA/BRN and the areas you cover. It takes about two minutes — no forms, no website sign-up.

10. What information comes with each lead?

The buyer’s name and contact number, their budget, preferred area(s), purpose and timeline, a Q-Score, a short AI summary of the conversation, and a voice-verified stamp.

11. How does voice verification work?

Before delivery, the buyer confirms their requirements on a short recorded call. The recording is stored securely so any dispute can be resolved fairly. Recordings are never shared with brokers.

12. What if a lead isn’t genuine?

Raise a dispute within 24 hours of delivery. Valid disputes are resolved with a replacement lead (operational target within 48 hours; outer guarantee 7 days).

13. How quickly should I call the buyer?

Within 60 minutes. The buyer is expecting your call, and prompt follow-up converts best. The 24-hour dispute window is designed to keep follow-up fast.

14. Which areas do you cover?

All major Dubai communities — Marina, Downtown, JVC, Palm Jumeirah, Business Bay, Dubai Hills and more. You set your specialist areas when you register.

15. How many leads will I receive?

It depends on live buyer demand in your areas. Leads are allocated on merit — never sold to the highest bidder — so we don’t guarantee a fixed volume.

16. Is there a contract or lock-in?

No. It is prepaid and commitment-free: top up when you want, pause anytime, and close your account whenever you like (question 7 says what is refunded).

17. Who can register?

RERA-registered Dubai real-estate brokers.

18. Do you guarantee I’ll close the deal?

No. We guarantee the lead’s qualification and voice verification — the outcome depends on your own follow-up and service.

19. How is my data handled?

In line with our Privacy Policy and UAE data-protection law (PDPL). Buyer data shared with you must be used only to follow up that introduction.
